

Project for Doctoral Studies in States of Consciousness and Parapsychology (handledning på svenska eller engelska)

As part of programmatic research on states of consciousness and anomalous psychology, I (see also [http://portal.research.lu.se/portal/sv/persons/etzel-cardena\(d53593d2-7c3f-492b-98d0-5b28ae46f227\).html](http://portal.research.lu.se/portal/sv/persons/etzel-cardena(d53593d2-7c3f-492b-98d0-5b28ae46f227).html)) can supervise doctoral students in the following topics:

- 1) Anomalous experiences and their association to enhanced or decreased psychological function.
- 2) The neurophenomenology of spontaneous and induced states of consciousness with people varying in hypnotizability and dissociation.
- 3) Mind-wandering and related processes.
- 4) Dissociative processes and traits, including their relation to development and trauma.
- 5) The relation between hypnotizability, dissociation, alterations of consciousness, and performance in controlled psi experiments. I will not supervise a student who only wants to do research on psi.
